

EMERGENCY MANAGEMENT

ADRA's emergency management approach is to save lives and reduce suffering to disaster affected community, deliver coordinated and integrated emergency life saving interventions to affected communities and strengthen preparedness, mitigation and Disaster Risk Reduction (DRR) programs that benefit vulnerable households.

APPROACH

The initial interventions were in emergency and relief, but currently the interventions have expanded to include rehabilitations and development interventions in health, water, education, energy, agriculture, cash for work, food for work, distribution of Non-Food Items (NFI) and capacity building.

KEY ACHIEVEMENTS

- ▷ **139,700** vulnerable people have sustained access to health care services through rehabilitation of six health care facilities.
- ▷ **71,680** people reached through re-establishing of reliable and sustained access to safe water in the cyclone affected areas.
- ▷ **10** strategic water supply schemes rehabilitated or reconstructed and benefiting 49,250 people in the cyclone affected areas.
- ▷ **1,952m³** (1,952,000 litres) of clean water was provided at both schools during a 60-day period.
- ▷ **4,752** youth and **390** teachers reached through rehabilitation of learning spaces, materials and service delivery. This led to sustained provision of education services in emergency affected communities.
- ▷ Rehabilitation of **15** schools was done on classrooms, temporary learning space, child friendly space and school offices.

Photo/ADRA

- ▷ **2,219** children (1,283 boys and 936 girls) and an estimated 150 teachers (total 2,369 beneficiaries) benefited through the rehabilitation in the 15 schools.
- ▷ Well-being of **4,758** children (2,752 boys and 2,006 girls) improved through distribution of 360 desks.
- ▷ **4,758** people were supported and benefitted from emergency water supply activities.
- ▷ **4,196** beneficiaries received an equivalent of 3,776 m³ (3,776,000 litres) of safe drinking water to schools and health facilities.

RECENT PROJECTS

Cyclone Response Interventions and Support in Somaliland (CRISIS)

The CRISIS project, funded by UNOCHA (SHF) was aimed at addressing the needs of the affected communities thus reducing excess mortality among the most vulnerable people.

Enhanced Access to WASH services for vulnerable communities in Kismayo District (EAWS)

The EAWS project improved water and sanitation services to 39,128 beneficiaries in schools and local communities within Kismayo District.

Response to Flood Emergency in Somalia (REFLES)

Funded by ADRA International, the project's aim was to distribute water and sanitation NFI (non-food items) kits to 10,240 flood displaced and internally displaced households in Somaliland.

STRATEGIC PRIORITIES

Through our strategy we aim to:

- ▷ Save lives and reduce suffering of disaster-affected communities.
- ▷ Provide access and restitution of learning in emergency situations.
- ▷ Apply disaster risk management mechanisms to protect livelihoods and reduce social and economic losses.
